

Silvaflame-Cleervue Co Ltd

MAX-A-JUST GUARD

DESCRIPTION

This Cleervue Milling Guard MAX-A-JUST is made of 2mm Steel Frame with a Polycarbonate visor making it very impact resistant.

The guard easily opens allowing access to change tools.

The visor can be adjusted up and down to suit the job.

UNPACKING

Check for shipping damage. If damage has occurred, a claim must be filled with carrier. Check for completeness. Immediately report missing parts to supplier.

SAFETY RULES

Warning: for your own safety, read all of the instructions and precautions before operating tool.

Caution: always follow proper operating procedures as defined in this manual - even if you are familiar with use of this or similar tools.

Remember that being careless for even a fraction of a second can result in severe personal injury.

ASSEMBLY

The guard will come completely assembled ready to be fitted to your machine.

INSTALLATION

The MAX-A-JUST Guard secures to the machine bed using T-Nuts. Simply bolt the guard down in the desired location using the supplied T nuts and bolts.

Adjust the visors around the job to give the most protection from swarf and debris.

Important: Make sure all bolts are nice and tight.

The visors should be replaced every 3 years and should be checked every day before use for signs of cracking or weakening.

Some coolants and cleaners are known to weaken polycarbonate so please check with your supplier before use.

OPERATION

The MAX-A-JUST Guard opens with a latch on the left and right side of the guard.

The visor can be adjusted up and down to allow for working on different jobs.

The two inner visors can be adjusted up over any vices or items sticking off the bed.
